Linda Hack

artsbylindalee@yahoo.com

Linda's mediumship began after she joined The Channeling Erik group and began sharing her Light Language (speaking in tongues) with others in the group.

Once she realized this ability she recognized that it was not only for her, but for the purpose of sharing the light of true spirituality with others. Linda calls this planting the seed of truth, knowledge and understanding.

Linda has the ability to channel loved ones, guide, angels as well as peeking into your past life that has a connection to your present day life giving insight and understanding. Linda also communicates with animals in life and spirit.

Linda can channel into a galactic life you are now living or have previously lived.

Linda's clients are from all over the world. Sessions are done via the internet making that possible.

Linda has been featured on the Kevin Moore Show, Beyond the Stars and until you walk the path, on Blog Talk Radio
